

IN THE DRAWINGS

Please amend the drawings by adding an arrow between step 100 and step 102 as shown in the Replacement Sheet attached at the end of this amendment.

REMARKS

The Examiner's allowance of Claims 1-12 is appreciated.

The specification has been amended to correct minor typographical errors. No new matter has been added.

Fig. 1 has been amended to include an arrow from step 100 to step 102. Support for this amendment is found in the specification on page 6, lines 15-17. That is, if the touch is treated in step 100 as a "selection" of the data term touched, the system continues with "selection" path 102. Thus, there should be an arrow from step 100 to step 102 showing the continuation to step 102. No new matter has been added.

Entry of this amendment in accordance with 37 CFR 1.312 and MPEP 714.16 is respectfully requested. This amendment merely embodies the correction of formal matters without changing the scope of the claims. No substantial amount of additional work on the part of the Examiner is required.

Respectfully submitted,

/Yan Glickberg/
